dLAN®
200 AV Wireless N

One for all!
Connect all network-compatible devices in the rooms
to the Internet using just one dLAN® adapter.

Game consoles, Internet TV sets, Blu-ray players, laptops and smart-phones – more and more devices can be connected to the Internet. Whether using WLAN or a classic network cable – the dLAN® 200 AV Wireless N is the solution. Using the compact devolo adapter, you can easily set up individual WLAN zones in the home and also connect up to three cable-based devices in the room to the Internet using just one dLAN® adapter. Ideal for the living room and home office!

dLAN®
200 AV Wireless N

Highlights:

- Powerline adapter for extending the Internet connection to every room of the house via the powerline. Whether via WLAN or using a classic network cable, all devices in the room have an optimum connection.

- Easy set-up of WLAN zones (WLAN access points) in the dLAN® home network with support of the WLAN „802.11n" high-speed standard.

- No more problems with thick walls: at last, wireless LAN in every room and on every floor of your house

- 200 Mbps (gross) connection for fast data transmission, 300 Mbps (gross) in WLAN operation („802.11n" standard).

- Three integrated network ports (RJ45) for cabled connections of computers and network-compatible devices (e.g. PlayStation, television and Blu-ray player)

- Compact socket adapter with two integrated antennas for versatile and unobtrusive positioning

- Integrated encryption for WLAN (WPS) and dLAN® at the touch of a button.

- Separate on/off switch for WLAN operation. If WLAN is not needed, it can be switched off easily.

- 4-LED status display for information about operating state and WLAN and dLAN® connectivity.

- Greater security with integrated timer: the operating times of the WLAN can be configured individually using the software

- 3-year warranty
