Add-Ons - More Than Just Storage ³		
Access and Multimedia		
	My Music	My Music allows you to manage and access your music collection from anywhere at any time. With integrated music player and Apple AirPlay support.
	My Photo	My Photos lets you create albums and manage photos albums, and share them with family and friends over the Internet. You can even share through social networks such as Facebook, Picasa and Flickr.
	My Files	My Files allows you to access and manage your files and documents through a web browser.
	UPnP AV Server	UPnP AV Server that is DLNA compliant provides the ability to stream photos, music and videos to UPnP AV compatible network media players such as smart TVs.
	iTunes Server	iTunes Server provides the ability to share music to computers on the local network running iTunes.
Surveillance		
	Surveillance Center	Manages and connects up to 4 mydlink™ video surveillance cameras. Allowing you to stream and save all data to your mydlink™ ShareCenter™..
Download		
	P2P Download	Allows you to configure and manage your Peer to Peer downloads and create download schedules without the need of a computer.
	FTP/HTTP Downloads	Schedule file and folder backups from an FTP server, web server, or local network device.
Backup		
	Remote Backups	The Remote Backups allows you to backup files on the mydlink™ ShareCenter™ to one or more remote storage devices in order to prevent data loss in the event of a failure.
	Google Drive Sync	Google Drive Sync is an application that syncs everything on your mydlink™ ShareCenter™ with your own Google Drive account in the cloud.
	D-Link Vault	D-Link Vault, powered by ElephantDrive, provides simple and secure cloud backup for your mydlink™ ShareCenter™
	Local Backups	Configure and schedule backups from the local network and share to a local device.
	USB Backups	You can back up your external USB hard disks or portable devices to your mydlink™ ShareCenter™ via the integrated USB port.
	Time Machine Backups	The mydlink™ ShareCenter™ can become a backup destination in the Mac OS X Time Machine.
